You must use at least 10 out of the 18 words listed above somewhere in your project. You can choose from any of the vocabulary listed in the above list: mechanical energy (7), electrical energy words (8), light energy (3). For example if you do Flash Cards for all the mechanical words then that is worth 30 points, and if you do it again for all the electrical energy then it is worth another 30 points. All choices on the choice board must be in color. We will get two class days to work on this and then you can finish it at home. It will be due on 11/12.
